Welcome to Quadraspire, the contemporary furniture manufacturer based in Bath, England with a worldwide audience. Since 1995, we have been designing & manufacturing hifi furniture blending functionality and style with acoustic performance.

As well as securing raw materials from sustainable sources, we endeavour to recycle waste materials so you can be sure that the product you buy is doing least harm to the environment. This brochure features the latest additions to our range including the new Q4EVO and SVT Sunoko-Vent racks. ■

Made in England

Eduard Spruit
Designer & Founder

■ Q4EVO Cherry

At Quadraspire we believe that the rack is central to the optimum performance of a whole system. The reason for this is that each electronic component and cable is susceptible to electrical and mechanical noise that will degrade overall system performance. It is critical to reduce this to a minimum to deliver a clearer, cleaner musical performance. We are able to achieve this through a combination of non magnetic aluminium columns and specially engineered wooden shelves. To ensure consistent production to the highest standards expected from our customers around the world we make our own products at our factory in Bath, England. ■

■ SVT Sunoko-Vent T Oak

WHAT HI-FI?
SOUND AND VISION

Quadraspire Q4EVO
November 2009

"The cheapest rack here gives our kit a cohesive sound with a well-balanced treble, taut and expressive bass and a supple and emotive midrange."

the absolute sounds
hi-fi+

Quadraspire Q4EVO
Issue 70 2010

"EVO delivered a noticeably cleaner and crisper sound, with an increase in both micro and macro dynamics and a welcome gain in instrumental colour."

WHAT HI-FI?
SOUND AND VISION

Quadraspire Sunoko-Vent T
November 2009

"Dynamically, you get a first rate performance, and production subtleties are a revelation."

the absolute sounds
hi-fi+

Quadraspire Sunoko-Vent T
Issue 70 2010

"the Sunoko Vent enjoyed a worthwhile edge in terms of transparency and tonal separation... releasing more of the performance from the electronics, more of the performance from the artists."

■ Q4EVO Maple
19mm Columns

Quadraspire launched its first hifi rack, the Q4, in 1995 and to celebrate its 15th anniversary we developed a total upgrade. The new Q4EVO shelf is intricately machined on the underside to further reduce mass and resonance without losing any of its strength. Aluminium columns eliminate residual magnetism and the adjustable spiked feet allow efficient floor de-coupling. Real wood veneered shelves ensure good self-damping properties. Where space is a premium and isolation is a must, use the unique Q4EVO wall bracket with Q4EVO shelf. ■

Refer to page 2 for review extracts or visit our website www.quadraspire.co.uk

Intricate Machining

■ Q4EVO Black
19mm Columns

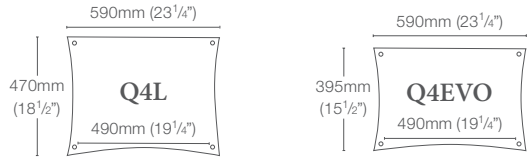

Some of the many combinations you can build online using Product Builder at www.quadraspire.co.uk

■ Q4EVO Maple Shelf & Wall Bracket

■ Q4EVO SandBlast 19mm Columns

The Q4EVO is a beautiful and practical modular solution combining shelves with aluminium columns and feet to enhance your sound system both sonically & visually. Its flexibility allows you to build a rack to your own specifications to fit any number of components. Build your own rack using Product Builder at www.quadraspire.co.uk.

The Q4EVO is now also available with SV 32mm columns to give extra strength for larger and heavier equipment without compromising performance.

Turn to page 14 for the full range of finishes.

■ Q4EVO Oak 19mm Columns

- Q4EVO Spec :
- Shelf finishes Cherry, Maple, Oak, Wenger, Black, Clear & Sandblasted Glass - See page 14
 - Column heights 100mm (4"), 140mm (5 1/2"); 180mm (7"), 216mm (8 1/2"), 256mm (10") & 326mm (12 3/4")
 - Column diameters 19mm (3/4"), SV 32mm (1 1/4") & 32mm (1 1/4")
 - Column finishes Black & Matt Silver
 - All tables are supplied with both flat & spike feet (see p14)
 - Optional extras wall bracket, castors & floor protectors (see p14)

Weight capacity 80kg (175lbs) per shelf

■ SVX Sunoko-Vent Oak
SV 32mm Columns

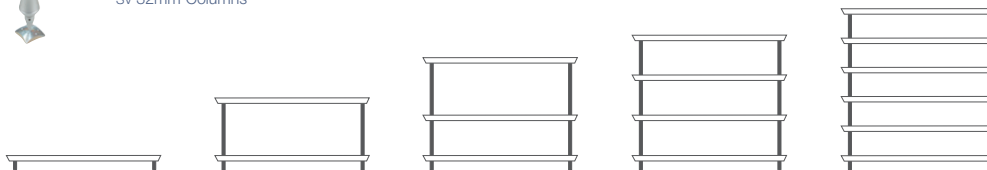

Quadraspire goes from strength to strength improving performance still further with the launch of the SVT Sunoko-Vent hi-fi rack. Incorporating the best features of the Q4EVO the SVT can hold much heavier and larger components (up to 120 kilos per shelf). The engineered slotted shelves reduce mass and help air circulation to avoid overheating of components. ■

"A clever solution to the twin problems of resonance and ventilation, the slotted-shelves of the Sunoko-Vent T provide additional airflow to components that need them. And while reducing resonance from external sources, the main frame design allows equipment placed on it to shine. A good enough reason to be an award-winner."

Refer to page 2 for review extracts or visit our website www.quadraspire.co.uk

Some of the many combinations you can build online using Product Builder at www.quadraspire.co.uk

Solid Brass Collars

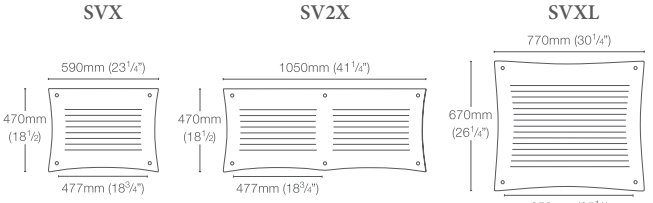

Each SVT shelf can be decoupled using solid brass collars to reduce resonance further, and the solid concave columns quickly dissipate vibrations to allow your components to virtually float and deliver a clearer, cleaner musical performance.

The SVT is a beautiful and practical modular solution combining shelves with aluminium columns and feet to enhance your sound system both sonically & visually. Its flexibility allows you to build a table to your own specifications to fit any number of components. Build your own rack using Product Builder at www.quadraspire.co.uk.

Turn to page 14 for the full range of finishes.

■ SV2T Sunoko-Vent Oak
SV 32mm Columns

Weight capacity 120kg (264lbs) per shelf

Sunoko-Vent Spec :

- The Sunoko-Vent is available in 3 sizes SVX SV2X and SVXL. The SVX is designed to hold standard sized hifi whilst the SV2X is double the width and can hold both hifi and AV components. For larger components we have the SVXL.
- The Sunoko-Vent is modular and comes with SV 32mm diameter aluminium columns available in 6 different heights – 100mm (4"); 140mm (5 1/2"); 180mm (7"); 216mm (8 1/2"); 256mm (10") and 326mm (12 3/4").
- Each shelf is made from 25mm (1") thick real wood veneered mdf available in 6 different finishes – Natural Cherry; Oak; Maple; Cherry; Wenger and Black.
- Optional extras wall bracket, castors & floor protectors (see p14)

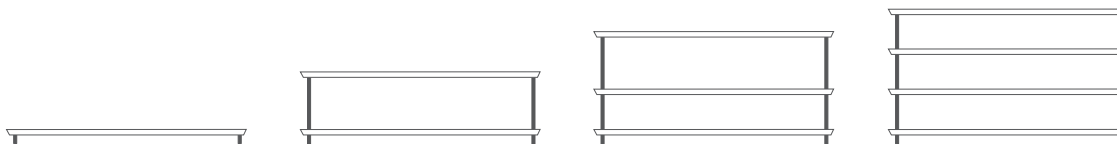

■ QAVX Wenger
19mm Columns

■ QAVM Oak
32mm Columns

The QAV is a beautiful and practical modular solution combining shelves with aluminium columns and feet to enhance your sound system both sonically and visually. Its strength is in the solid 25mm (1") thick wooden shelves or 10mm (2/5") thick toughened glass shelves that can hold components up to 100kg (220lbs) per shelf. As with the Q4EVO the QAV's flexibility allows you to build a rack to your own specifications to fit any number of components. ■

Some of the many combinations you can build online using Product Builder at www.quadraspire.co.uk

The choice of 3 sizes means the QAV range can support any system from the smallest LCD to the largest plasma. The QAVX can accommodate a complete AV system including front and centre speakers on one rack.

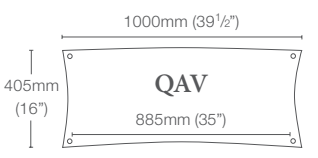

The QAV is now also available with SV 32mm columns to give extra strength for larger and heavier equipment without compromising performance. ■

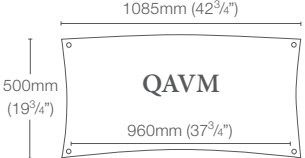

Turn to page 14 for the full range of finishes.

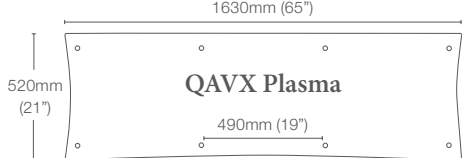

■ QAVM Glass
32mm Columns

Weight capacity 100kg (220lbs) per shelf

Weight capacity 100kg (220lbs) per shelf

Weight capacity 280kg (615lbs) per shelf

QAV Spec :

- Shelf sizes QAV QAVM & QAVX Plasma
- Shelf finishes Cherry, Maple, Oak, Wenger, Black, Clear & Sandblasted Glass - See page 14
- Column diameters 19mm (3/4"), SV 32mm (1 1/4") & 32mm (1 1/4")
- Column heights 100mm (4"), 140mm (5 1/2"), 180mm (7") 216mm (8 1/2"), 256mm (10") & 326mm (12 3/4")
- Shelf column finishes Black & Matt Silver
- All tables are supplied with both flat & spike feet (see p14)
- Optional extras castors & floor protectors (see p14)

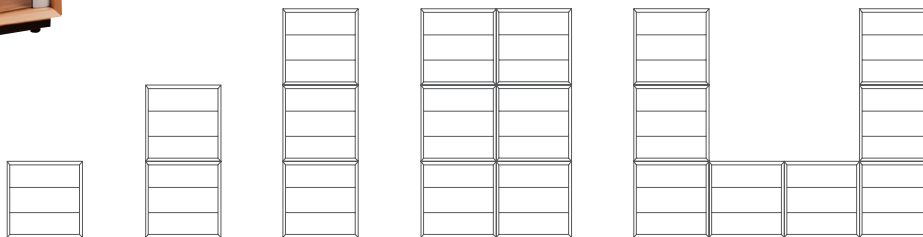

■ CD Qubes x 2 - Oak

The CD Qube is designed to house your expanding CD & DVD collections. Modular and flexible in use, the CD Qube provides an attractive practical solution for your media storage needs.

The CD Qubes can be floor standing or wall mounted and each can hold up to 150 CDs or 66 DVDs. Clear or sandblasted glass doors & adjustable plinth are optional. ■

■ CD Qube x 1 - Oak

Some of the many combinations you can build online using Product Builder at www.quadraspire.co.uk

■ LP Qube - Cherry

The LP Qube is a brilliant solution to all your vinyl storage needs. Each Qube can hold up to 140 LPs with glass dividers providing good protection and optional glass doors to keep them dust free.

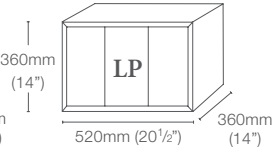

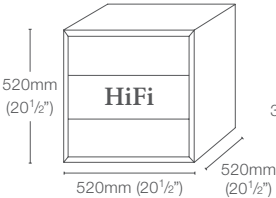

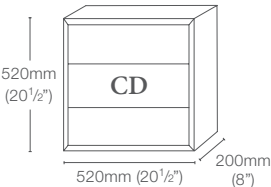

The HiFi Qube can house your hifi & av components discreetly and can be connected to both the CD & LP Qube to create a media wall. Glass doors & adjustable feet are available as optional extras.

This new series of multi purpose Qubes has uses beyond simply music storage. ■

Turn to page 14 for the full range of finishes.

■ HiFi Qube - Oak

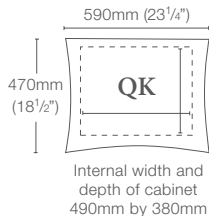

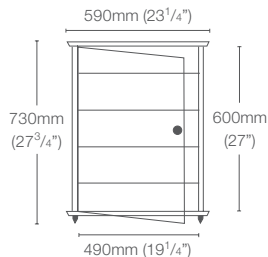

- Qube Spec :
- Qube finishes : Cherry, Maple, Oak, Wenger & Black - See page 14
 - Standard fittings includes self adhesive rubber feet
 - Optional extras :-
 - : CD base including adjustable flat feet (see p14)
 - : Adjustable flat feet or spikes or castors (see p14)
 - : Clear or Sandblast doors

■ QK Oak

QK Spec :

- Weight capacity 30kg (66lbs) per shelf
- max load 120kg (260lbs)
- Optional extras castors & floor protectors
- QK finishes Cherry, Maple, Oak, Wenger, & Black - See page 14

For those who prefer their hifi enclosed, and little fingers spring to mind, the Quadraspire cabinets are the answer - the QK & QKAV are made to order.

The QK cabinet is available with lockable clear or sandblasted glass door. Inside, there are four adjustable glass shelves. Good ventilation and easy access is provided through the open frame back.

The QKAV cabinet is a solution which enables you to house large systems within an elegant structure. The double doors can be recessed into the cabinet when open. The doors are lockable and available in clear or sandblasted glass. Inside, there are two adjustable glass shelves. Good ventilation and easy access are provided through the open frame back. This is a robust yet tactile piece of furniture and should you need to move it, heavy duty castors are available as an optional extra. ■

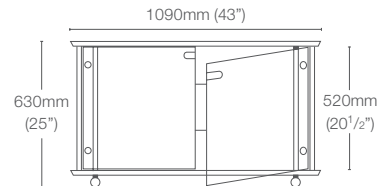

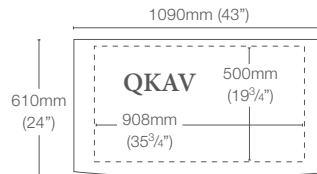

Turn to page 14 for the full range of finishes.

■ QKAV Cherry

QKAV Spec :

- Weight capacity 60kg (130lbs) per shelf
- max load 180kg (400lbs)
- All tables are supplied with both flat & spike feet
- Optional extras heavy duty castors
- QKAV finishes Cherry, Maple, Oak, Wenger, & Black - See page 14

QX600 & QV60

Speaker Stands

www.quadraspire.co.uk

■ QX 600L - Acrylic

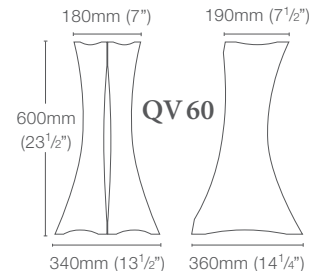

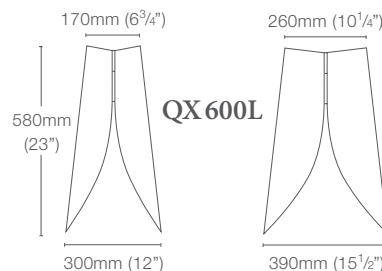

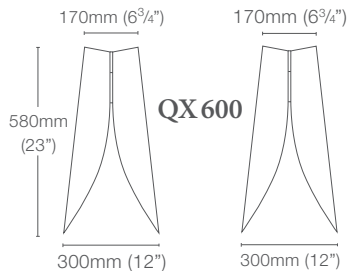

Quadraspire has taken its designs to another level through the development of the QX silencer – a new phenomenon in isolation support – delivering a clearer, cleaner and more musical performance. The QX! Silencer is designed and manufactured from low-mass inert acrylic for resonance-free isolation support. The unique Quadraspire curve ensures minimal contact, de-coupling and freeing audio components from their environment.

Our new speaker stand the QV60 is designed to complement our hifi racks and is available in all our standard wooden finishes. As with all our hifi furniture the QV60 is easy to assemble and has fully adjustable spikes. ■

■ QV60 Oak

■ QV60 Black

QX! Silencer is a unique, versatile and effective isolation support for all audio components, speakers and cables sited on furniture, floors or other surfaces. QX! Silencer dramatically reduces the negative effects of contact vibrations on sound quality, delivering a more clearly defined musical performance.

Listen to the difference with the QX! Silencer...

QX 25

Low profile design for audio components including CD, DVD players, tuners, turntables, amplifiers and all-in-one systems.

QX 50

Designed specifically for loudspeaker cables, signal cables and power cables.

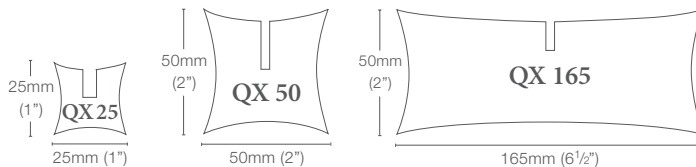

QX 165

Larger profile design for shelf-mounted loudspeakers and floor standing audio components – amplifiers, power conditioners and power blocks.

QX25, QX50 & QX165 Spec :

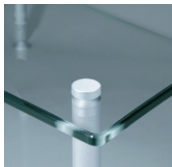

- Finishes Clear Acrylic
- Supplied with non slip discs

QC Floor Protector

Castor

- When ordering a Q4EVO, SVT or QAV rack you need to specify :- Shelf finish; number of shelves required; column finish; column heights & finally the column diameter.
- For the Qube, QK and QKAV cabinets choose the wood finish; and for the doors specify Glass or SandBlast Glass.
- Wood is unique in its beauty and is therefore subject to variation in grain and colour. Whilst every effort is made to ensure consistency in the representation of the wood finishes in the photographs, please be aware that there may be variations between the brochure and the actual product.
- Quadraspire glass is toughened in accordance with British Standard BS6206 and European Standard EM12150.
